

SILVER

Independent Metallurgical Operations Pty Ltd (IMO) has highly relevant experience in the development of process flowsheets of silver projects. Our team has proven capabilities in the design and management of silver testwork programs, project development, commissioning and operations throughout Australia and worldwide.

Our scope of services ranges from sample selection, ore characterisation and mineralogy, through to management of metallurgical testwork, process aspects of scoping and feasibility studies and client representation onto plant commissioning, ramp up and process plant optimisation.

PROJECT	CLIENT	OUR WORK
T3 Project, Botswana	Sandfire Resources (former MOD Resources)	Study Management from Scoping Study through PFS encompassing all disciplines as well as detailed Metallurgical Testing.
Wonawinta Silver Project, New South Wales	Cobar Consolidated Resources	Provision of technical support for commissioning, debottlenecking, ramp up and process optimisation.
Nimbus Project, Western Australia	MacPhersons Reward	Completion of metallurgical component of the scoping study for the oxide and sulfide resource development.
Palmarejo, Mexico	Coeur D'Alene Mines Corporation	Plant optimisation, ramp-up and technical support.
Webbs Silver Project, New South Wales	Silver Mines Limited/Australian Zircon	Metallurgical assistance on Silver, Lead, Copper and Zinc flotation circuits. Integrated asset management, plant procurement, commissioning and tailings.
Mount Kare, PNG	Indochine Mining Limited	Completion of metallurgical development of PFS including full testwork management and execution.
Dikulushi Copper/Silver Project, DRC	Sedgman	High level technical report and project review / sign off.
Ojolali Gold and Silver Project, Indonesia	Catalyst Metals	Design and management of the metallurgical testwork program to determine the expected recoveries of silver.
Mahumo Project, Botswana	Sandfire Resources (former MOD Resources)	Testwork management of initial flotation testwork and further optimisation testwork of a copper / silver project.
Hidden Valley, PNG	Newcrest Mining Ltd	Commissioning, debottlenecking and ramp up including provision of metallurgists over a period of 12 months.

► Please contact us for more details on how we can provide you with assistance and support to your project.
